

IMAGINE HERO SCRIPT

VIDEO TRANSCRIPT

Industry X helps you imagine the future of your industry.

So you can see beyond the products you make.

And how they are made.

See beyond to exciting new futures.

Sustainable futures.

Productive futures.

Futures in which you have grown,
immeasurably.

Using the power of data and digital,

We reimagine how products are designed and
engineered,

How they are sourced and supplied,

How they are manufactured,

And even how they are returned, serviced and
renewed.

Industry X helps you imagine what's next.

And we'll help you make it a reality.
